

The figure consists of a 5x5 grid of 25 identical charts. Each chart is a 12-month timeline with a bar chart and a line graph. The x-axis represents months from 1 to 12. The y-axis represents a numerical value, ranging from 0 to 100. The bar chart shows the monthly values, and the line graph shows the cumulative values. The data is as follows:

Month	Bar Chart Value	Line Graph Value
1	10	10
2	20	30
3	30	60
4	40	100
5	50	150
6	60	210
7	70	280
8	80	360
9	90	450
10	100	550
11	110	660
12	120	780
