

The transition risk imperative

As industries go greener, Allianz Trade helps businesses adapt with expert guidance and tailored solutions to secure financing and unlock growth opportunities.

1

Shipping

- **US\$23 billion** – The minimum investment required to reach net-zero emissions in global shipping by 2050¹
- This highlights the urgent need for sustainable financing across industries

2

Renewables

- **15% per year** – The growth rate needed in the renewables sector to meet the 2050 net-zero target²
- This presents a major opportunity for companies to adapt and expand

3

Supply chain shifts

- **22%** – The proportion of companies prioritizing ESG when relocating supply chains³
- **Nearshoring** is emerging as a key strategy
- Embracing sustainable practices offers local market partners a competitive advantage

How Allianz Trade helps you manage transition risks
