

# Allianz Trade for mid-size multinationals

Allianz Trade Credit Insurance for mid-sized multinational companies combines our local and multinational expertise to deliver tailor-made, world-class credit risk management solutions to global businesses.

Together we provide the highest levels of credit risk coverage alongside real-time risk management information and intelligence to support mid-sized multinationals' global trade ambitions.

Our mid-sized multinational customers benefit from the best of both worlds — day-to-day service and decisions made locally, with oversight handled centrally.

**Allianz Trade's proposition for mid-sized multinationals has been developed for companies with:**

- a turnover of €100m to €300m; and
- subsidiaries in at least 2 countries.

**100+**  
years of expertise  
as global leaders in  
credit insurance

**AA**  
rating  
by Standard & Poor's

**62,000**  
customers worldwide

### Why choose Allianz Trade

As part of the Allianz Group, we're the #1 insurance brand worldwide, with an AA rating from S&P.

So when you're working in new markets, trading with new partners, or facing economic uncertainty — you can rely on us.

### Truly tailored solutions

We build credit insurance programs according to multinational businesses' precise needs, with clear implementation strategies, robust compliance policies and efficient claims handling.

### A local and global team

Our combined local and global team works as one, even across borders, to ensure efficiency for our customers. We're passionate about finding the right solution for every customer — without going through layers and layers of approval.

### Expert support and analysis

We support your credit decision-making with our market-leading worldwide information network and macroeconomic insights courtesy of the Allianz Research team.

### Smarter ways to get better results

Our knowledge and expertise helps you, as our partner, keep up to speed in a changing digital world.

### Allianz Trade Online

Get a centralized view of all your policies, and stay on top of limits, clients, credit checks and more.

### Allianz Trade SmartView

Monitor portfolio risks in real-time to support decision making as markets improve or deteriorate

### Allianz Trade API

Integrate our systems with yours to automate and accelerate policy management to free up resources.

### Experts beyond underwriting

Customers with international exposures need to be able to rely on their trade credit insurer to deliver a prompt, consistent, and fair claims handling approach.

Thanks to our claims specialists' combined expertise in handling default and insolvency situations, we're able to commit to:

- assessing all claims within five days
- indemnifying all insolvency claims within 30 days of receipt of information
- settling all protracted default claims on the due date

### Let's talk

Available through our local teams, our Mid-Size Multinational service offers a cost-effective credit insurance solution that supports a company's global trade ambitions.
